BIO

Msc. Armela Zylfo completed her "Bachelor in Nursing" studies in 2017 at the Faculty of Technical Medical Sciences, at the University of Medicine, Tirana. Then she graduated in "Master of Science in Nursing", during the period 2017-2019 at the same faculty.

She also attended the second Master of Science in "Business Administration" at Tirana Business University in 2021.

She has a 5-year experience as a lecturer in prestigious universities, both private and state, in national and international level. She has been lecturer of few modules including: Nursing and Pediatric Health, Diagnostic-Therapeutic Program, Rehabilitation Nursing, Nursing in Infectious Diseases and Dermatology, Nursing in Geriatrics, Nursing in Internal Diseases, etc.

She has been an active participant in a large number of scientific conferences and congresses as well as various trainings at the national and international level. The topics with which she is represented are mainly related to nursing care for oncology patients, patients with blood diseases with a main focus on pediatric age and children diagnosed with thalassemia.

MSc. Armela Zylfo has participated in numerous trainings in the field of education and teaching organized by Center for Learning Innovations & Customized Knowledge Solutions (CLICKS) and Center for Professional Training and Innovation (QAPI).
