BIO

MSc. Enxhi Hasani has finished her Bachelor and Master of Science studies in Public Health at the University of Medicine in Tirana, Albania, as an excellent student.

Currently she is the Coordinator of the Faculty of Medical Sciences at “Barleti” University and the lecturer of subjects such as biostatistics, epidemiology, public health, environmental health among others. She is very interested in research in the field of health and prevention.

She has excelled in public health and epidemiology with her job experience as the Chief of Public Health Inspections at the National Public Health Inspectorate. At this job position she has worked hard to maintain and protect the health of the population at Durrës County.

Her intensive job to control and prevent further spread of the Sars-cov-2 pandemics has been one of the main challenges she has faced very well, and also the management of nature disasters such the Earthquake of 26 November 2019 among many other public health situations.

MSc. Enxhi Hasani comes to “Barleti” University with her professional experience and knowledge but also with her passion for lecturing and the will to share her 4 years experiences in managing the public health.
